When they come together to work on a science project in Ivy + Bean: What's the Big Idea, they are determined to find a solution for global. What You Need to Know: Ivy and Bean are, as always, engaging and imaginative. The author, Annie Barrows, does such a masterful job of creating a kids-eye. It's the Science Fair, and the second grade is all over it! Some kids are making man-eating robots. Some kids are holding their breath for a very, very long time. When all the second grade students must enter the science fair, which has global warming as its theme, best friends Ivy and Bean team up to create an unusual.

But what should Ivy and Bean do? Something involving explosions? Or ropes? Something with ice cubes? Or maybe maybe something.

It's the Science Fair, and the second grade is all over it! Some kids are making man-eating robots. Some kids are holding their breath for a very. OWTK is excited to be a stop on the Ivy & Bean Fall Blog Book Tour. The tour is, essentially, a collection of kid-lit bloggers who have.

But what are Ivy and Bean up to? They could try something involving explosions, ice cubes, ropes, or possibly-and probably-something completely different!.

But what should Ivy and Bean do? Something involving explosions? Or ropes? Something with ice cubes? Or maybe maybe something. Follows Common Core Standards * This page booklet-style Novel Study is designed to follow students throughout the entire book. The questions are based .
